

# Автоматизация звука С в словах

Речевой материал в  
картинках

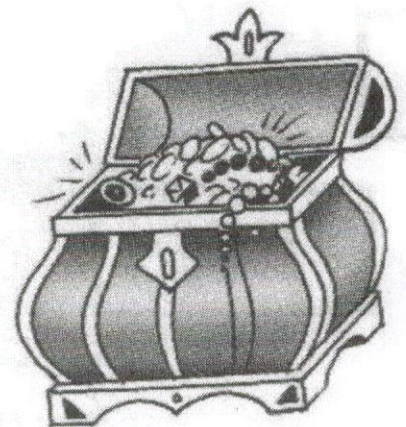

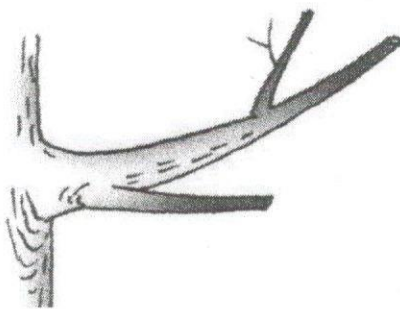

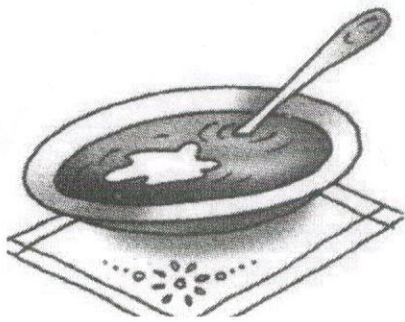

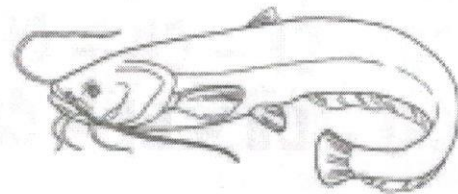

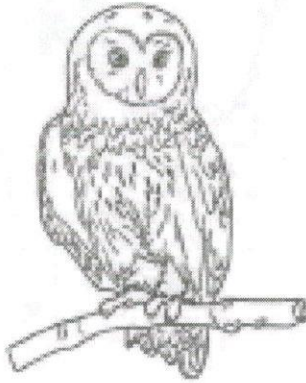

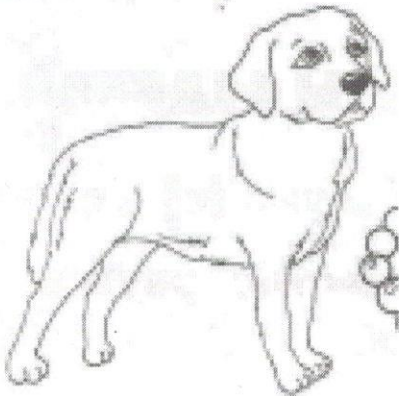

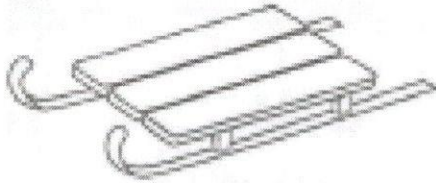

## Речевой материал для автоматизации звука [С] в словах

Весь материал разделен на несколько разделов, в зависимости от позиции звука в слове. Звук [С] в начале слова на страницах 3 – 5. Звук [С] в середине слова на страницах 6-8, страницы 9-11 содержат слова со звуком [С] в конце слова. Далее представлены слова со стечением звука [С] с согласными и слова с несколькими звуками [С] .

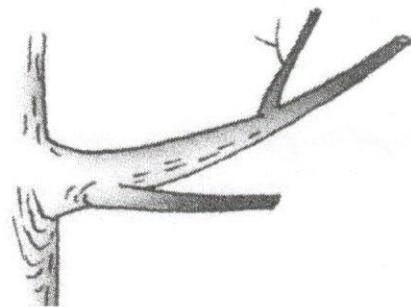

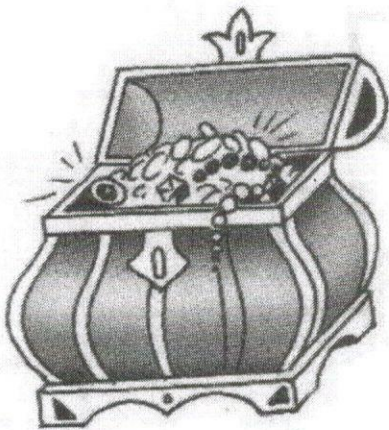

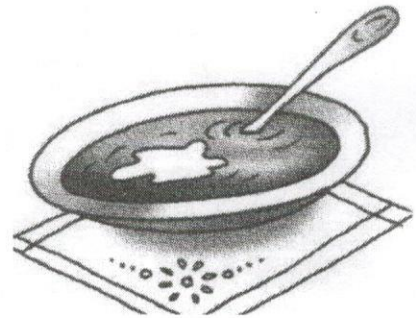

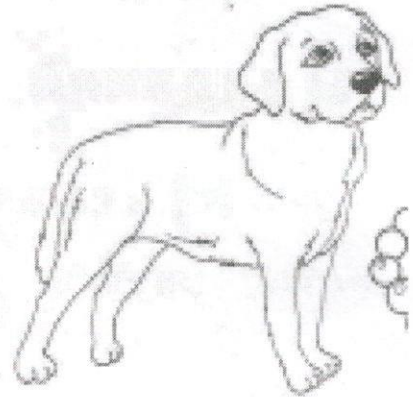

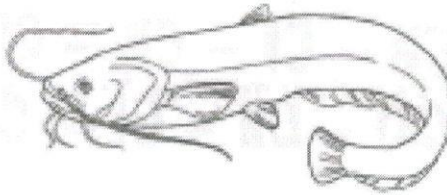

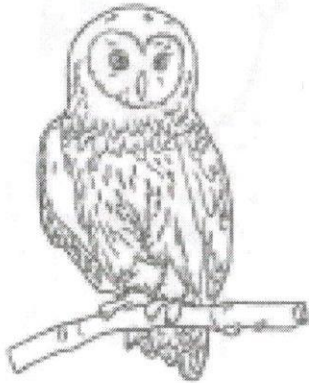

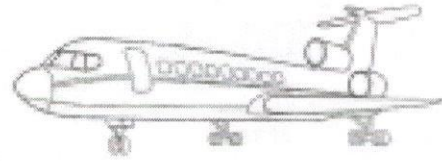

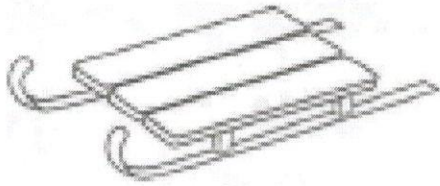

Для работы необходимо распечатать две страницы: одну для левой руки, другую – для правой. Сначала распечатываются одинаковые страницы, чтобы картинки были в одинаковой позиции для левой и правой рук, далее усложнение: картинки находятся в разных местах таблицы. Ребёнок указательными пальцами левой и правой руки показывает одинаковые картинки и называет их. Начало – левый верхний угол и по строкам, движение как при чтении.
